BOB
GREENWOOD
At-Large

STEVE
SCHMITT
At-Large

The budget information and documentation for the City of Waterloo project submittals were derived by the following methods:

1. Dry Run Creek installation – the City of Waterloo Engineering staff, in consultation with staff from consultant AECOM, estimated the cost estimate and put together the budget for the project based on standard percentages of design work, contingencies, etc.
2. Virden Creek levee improvements - the City of Waterloo Engineering staff, in consultation with staff from consultant AECOM, estimated the cost estimate and put together the budget for the project based on standard percentages of design work, quantities of materials such as dirt work, contingencies, etc.
3. Riverfront Stadium levee improvements - the City of Waterloo Engineering staff, in consultation with staff from consultant AECOM, estimated the cost estimate and put together the budget for the project based on standard percentages of design work, quantities of materials such as dirt work, contingencies, etc.
4. Sandbagging Building - the City of Waterloo Building Official and Superintendent of Central Garage, in consultation with architect for the Public Works Building under design, estimated the cost estimate and put together the budget for the project based on standard percentages of design work, costs of materials and construction, contingencies, etc.

The City staff is well versed at similar projects and costs of quantities of materials from ongoing and annual projects for the City of Waterloo.

If you have any questions or need any additional information on this matter, please feel free to contact me at 319.291.4366.

Sincerely,

Noel Anderson,
Community Planning & Development Director
